

PREMIUM SN 0W40

Premium SN 0W40 is a full synthetic polyalphaolefin (PAO) blend, API SN, super high performance petrol engine oil which combines the latest European specification development in oil formulation and additive technology to provide a lubricating oil with the highest level of protection.

Premium SN 0W40 reduces oil consumption and exhaust emissions, whilst delivering fuel economical benefits through effective friction reduction and load improvement agents.

Advanced additives and a high viscosity index provide excellent thermal stability, low temperature soot dispersancy and outstanding high temperature deposit control.

It is specifically designed for use in high performance turbo and non turbo petrol engines.

Premium SN 0W40 can be used in the most advanced European, American and Japanese model cars engines.

Premium SN 0W40 meets or is recommended for use in the following demanding performance requirements:

API – SN/SM
ACEA - A3/B4
MB 229.3, 229.5
BMW LL-01
Porsche A40
VW 502/505
Renault 0700, 0710

Benefits

- Formulated for stop – start driving conditions
- Improves engine performance
- Smooth operation for all high performance engines with superior high temperature protection
- Exceeds requirements for petrol and LPG engines
- Extends drain intervals
- Protects engines against rust and corrosion under severe operating conditions

TYPICAL CHARACTERISTICS

Properties	Unit	Value
SAE Viscosity Grade		0W40
Density, kg/lit @ 15 °C		0.85
Viscosity @ 40°C	cSt	71.5
Viscosity @ 100°C	cSt	13.0
Viscosity Index		185
Flash Point ° C		>220
Pour Point ° C		-40
TBN	Mg KOH/g	7.0

Package Sizes

1000 litre
205 litre
20 litre
